

# Artist Statement

**Dave Woessner**

I believe the images surrounding us in our homes and offices raise peoples' spirits and bring energy and joy to our spaces. I pride myself on bringing bright and colorful images of Minnesota's nature into a variety of settings creating a warm, inviting and comfortable atmosphere. My images can be found on the walls of private homes, medical offices, senior housing and other locations.

My passion for photography began more than 40 years ago with a class at the University of Minnesota. I enjoy exploring Minnesota's beautiful outdoors throughout the four seasons. When I photograph, I am conscious of the natural light around me. With patience, I capture the hard to capture, reminding us of the art and beauty in our natural environment.
