

# Artist Statement

**David Alan Berg**

I love photography. I love how it allows me to define the edges of a moment in time. How I can isolate an object or frame a scene. In my photography, I can narrow down a particular view and then capture it precisely. I can hone in on a color or a shape, a pattern or a form. I can move in for a close-up, step back for a wide view, look for the light or seek out the shadow. I can make sense out of seeming chaos, and capture the mood of a moment. I want my photographs to delight viewers with colors, shapes and forms, and enable them to see something they might miss or have not seen before. I want my photographs to surprise, to inspire, to elicit a simple, "Wow." I love photography.
