

# Artist Statement

**Larry Weinberg**

My subject matter is usually nature, whether it is a modern landscape or a bird and flower painting. I am inspired by my surroundings and the people I meet. I strive to convey that sense of place by capturing its fleeting magic. I use fluid acrylics on watercolor paper to capture movement and life. Everything is captured in the spontaneous dance and movement of the brush as it meets the paper. I love the sheer layers of color that can be created with fluid acrylics.
